

# Multi-Family Air Conditioners and Heat Pumps

Reliable, efficient comfort

SmartComfort™  
By 

## More Than a Century of Comfort

In 1902, a determined engineer answered one of mankind's most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world's first modern air conditioning system, Willis Carrier forever changed indoor life, and, more than a century later, the corporation that bears his name takes inspiration from his example.

## The SmartComfort® Difference

If you could look under the hood of a SmartComfort® R4A4 air conditioner or R4H4 heat pump, you'd see what drives the performance—a serious commitment to quality. Our microtube coil technology saves space and provides lasting comfort with its corrosion-resistant construction. And, our smooth-running compressor represents the solid, reliable performance you expect. These products are built to look their best while enduring exposure to hail, errant soccer balls, lawn equipment and more. The dense wire grille coil protection plays an important role in easy cleaning and optimum air flow.

**Efficiency:** SEER (Seasonal Energy Efficiency Ratio) ratings are like your car's MPG – the higher the number, the greater the potential for savings. These air conditioners and heat pumps offer a range of efficiencies that start at your region's minimum SEER and reach as high as 16.5 SEER.

**Durability:** A galvanized steel cabinet and dense wire grille provide protection against dings, dents and other outdoor threats.

**Limited Warranty:** To the original owner, SmartComfort R4A4 and R4H4 models are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. See warranty certificate at [carrier.com](http://carrier.com) for complete details and restrictions.

## 2-Year Easy Assurance Limited Replacement Warranty

The SmartComfort® product line not only performs well, but is backed by an enhanced warranty. All SmartComfort units come with a five-year parts warranty or 10-year extended parts warranty when registered within 90 days. SmartComfort units purchased through HD Supply come with the 2-Year Easy Assurance Limited Replacement Warranty, which means if a compressor fails or condenser coil leaks, the owner has the option of a one-time replacement.
